OCCASIONAL USE SERVICE

ABS Occasional Use is available on ABS-3A European beam and now also on ABS-2 East Hemi beam.

The ABS OU service provides reliable and flexible ad-hoc capacity for contribution and distribution of your content to any location in the beam footprints. Using the ABS OU service, users can transmit breaking news, summits, live international sports and events around the clock 24/7 at competitive rates.

ABS-3A wide Ku-band European beam extends from North America, across Europe to Moscow.

ABS-2 East Hemi beam covers key markets in Southeast Asia and North Asia with established penetration in the Philippines, Indonesia and Taiwan.

Benefits:

Dedicated 24/7 booking office

Reliable satellite capacity for critical media content

Ad hoc short term to long term capacity use

Delivery of cutting edge sporting and news events across Europe and Asia

Support planned and unexpected events as they happen

Round the clock technical support

About ABS:

ABS is a global satellite operator and offers a complete range of tailored solutions including broadcasting, data and telecommunication services to broadcasters, service providers, enterprises and government organizations.

Operating a fleet of satellites, ABS covers over 93% of the world's population across the Americas, Africa, Asia Pacific, Europe, the Middle East, CIS and Russia.

ABS has strategic alliances and partnerships with state-of-the-art communications hubs to deliver the best satellite solution.
